COMPANY

# PROFILE

2026

**Our journey**

We started our journey in 2017 with a desk office,  
focusing on interior and architectural design as the foundation of our work

In 2018, we expanded our work by undertaking interior  
and architectural design projects from concept to implementation

In 2019, we began our fieldwork, marking a significant step forward for us  
journey.

In 2021-22, we focused on construction management, civil engineering,  
and exterior design, expanding our expertise and scope of work.

In 2021-22, we focused on expanding our projects in civil engineering,  
building projects, and interior design on a larger scale

In 2025-2026, our goal is to take on larger-scale projects  
and ensure exceptional client satisfaction.

## Our Vision & Mission

### Mission

1. **Interior Design:** To craft unique, functional, and stylish spaces that reflect client's individuality, integrating innovation, sustainability, and comfort to enhance well-being and harmony.
2. **Architecture:** To design timeless, sustainable, and creative structures that balance aesthetics with functionality, addressing client needs and environmental concerns.
3. **Civil Engineering:** To build efficient, durable, and sustainable infrastructure that supports community growth, prioritizing safety, innovation, and environmental responsibility.

### Vision

"To be a globally recognized leader in interior design, architecture, and civil engineering, known for innovative and sustainable solutions. We aim to create inspiring, functional, and eco-friendly spaces that elevate lives and foster harmony between architecture, nature, and society. Committed to creativity, excellence, and integrity, we strive to enhance communities and ensure customer satisfaction.

## Professionals

"We recruit and nurture top talents in the interior design and construction industry, enhancing their skills and technical expertise to deliver exceptional services and innovative solutions worldwide."

## **Our Main 3 Services:**

### **1. Architecture & Interior Design Service**

#### **Architectural Services:**

1. Conceptual Design: Developing creative and functional building concepts.
2. Building Planning: Designing layouts that optimize space, efficiency, and functionality.
3. Structural Design: Ensuring structural stability and compliance with safety standards.
4. 3D Visualization: Providing detailed 3D renders and walkthroughs to improve project understanding.
5. Sustainable Architecture: Incorporating eco-friendly materials and energy-efficient designs.
6. Renovation & Restoration: Modernizing old structures while preserving their essence.
7. Urban Planning: Designing master plans for large-scale developments and communities.
8. Construction Documentation: Preparing detailed blueprints and project documents.

#### **Interior Works Services:**

1. Space Planning: Optimizing interior layouts for functionality and aesthetics.
2. Residential Design: Creating personalized interiors for homes that reflect client lifestyles.
3. Commercial Design: Designing professional and engaging spaces for offices, retail stores, and hospitality.
4. Furniture & Fixture Selection: Curating furniture, lighting, and decor that aligns with the design theme.
5. 3D Interior Visualization: Providing realistic interior renderings for precise decision-making.
6. Material Selection: Choosing sustainable and premium materials for durability and style.
7. Color Consultation: Offering expert advice on color schemes to match the space's mood and purpose.
8. Turnkey Solutions: Managing the complete interior design process, from concept to execution.

## 2. Civil Engineering Services

1. **Structural Design:** Safe and efficient building structures.
2. **Construction Management:** Project planning, scheduling, and oversight.
3. **Road & Highway Engineering:** Designing roads and highways.
4. **Site Development:** Site preparation, grading, and drainage.
5. **Foundation Engineering:** Strong foundation design for various structures.
6. **Surveying & Mapping:** Land surveys and topographical mapping.
7. **Water Systems:** Designing water supply, drainage, and wastewater systems.
8. **Bridge Construction:** Planning and building bridges.
9. **Environmental Engineering:** Eco-friendly solutions for waste and green infrastructure.
10. **Urban Infrastructure:** Designing urban roads, utilities, and services.
11. **Geotechnical Engineering:** Soil analysis for foundation design.
12. **Industrial Construction:** Building factories and warehouses.

### **3. Landscape Services**

1. **Site Analysis:** Assessing the land's conditions and potential.
2. **Conceptual Design:** Developing creative and functional landscape layouts.
3. **Plant Selection:** Choosing plants that suit the climate and aesthetics.
4. **Hardscaping:** Designing pathways, patios, and other non-plant features.
5. **Irrigation Systems:** Planning efficient watering systems for landscapes.
6. **Lighting Design:** Creating outdoor lighting plans to enhance safety and beauty.
7. **Sustainable Landscaping:** Implementing eco-friendly and water-efficient designs.
8. **Landscape Maintenance:** Ongoing care to preserve the landscape's beauty and health.
9. **Outdoor Living Spaces:** Designing comfortable and functional outdoor areas.

#### **We also have more services like...**

- i. Office Interior Design & Execution.
- ii. Hotel, Resort, Hospital, Showroom Interior & Exterior.
- iii. Restaurant & Cafeteria Interior Work.
- iv. Building Construction & Project Management.

**Our Amazing Clients:**

## Place Where We Give Services

## Technologies We Work With

1. Design Software: AutoCAD, SketchUp, Revit, and 3ds Max for drawings and 3D modeling.
2. Rendering Tools: V-Ray, Corona Render, Lumion, and Enscape for realistic visualizations.
3. Virtual Reality (VR) & Augmented Reality (AR): Immersive walkthroughs and AR apps for real-world overlays.
4. Project Management Tools: Trello, Asana, and Ivy for task and budget tracking.
5. Material Libraries: Material Bank, Fohlio for sourcing and sampling materials.
6. Energy Efficiency Tools: Sefaira, Energy Plus for sustainable designs.
7. Presentation Tools: Photoshop, Illustrator, and Canva for mood boards and proposals.
8. Smart Home Integration: IoT devices for tech-driven interiors.
9. Cloud Collaboration: Google Drive and Autodesk Cloud for file sharing.
